

Trail for the Pleasure Ride Green, White & Blue Ribbons

All ribbons are on the RIGHT. THREE ribbons means a turn is coming. Check the area for the ribbons showing you which direction to turn. Put your right shoulder to the ribbon and ride ahead.

Green & White & Blue Trail

Follow ribbons across the water, *turn right R before you hit the trees.

About a mile out *turn left L and follow the trail through the park to a green gate. Go through the gate and follow around to the right. The trail will cross a paved area and go up a road and past a meadow.

*Turn left L through a small creek and follow. This is the Beth Bliss Memorial Trail. There will be orange horse shoes in addition to the ribbons for much of this trail.

When the trail drops down through a wet area and meets a dirt road (several miles out) *turn left L onto the dirt road.

Dirt road ends in a gravel road *turn right R. Follow this gravel road about a mile and across another paved road. Just across the paved road *turn left L into the woods.

Follow this trail through the woods, across another dirt/gravel road, up an old grassy roadbed and around a log. There will be many ribbons to turn you left and right.

*Turn right R when the trail emerges onto a small road/path. Follow ribbons past a boggy lake, through the woods, and up a hill to cross another road. Keep going through the woods, you will come out into an old clear cut. Cross the clear cut and go up the gas line. The ribbons will show you a trail on the right side of the gas line.

*Turn left L off the gas line onto a dirt road, follow that road to a *left turn L. Follow and bear right, then *turn right. The dirt road/path ends at a gravel road - The Red Road - *Turn right R.

Follow the Red Road to the next dirt road *turn right R. Climb up and over a small hill, emerge in a meadow, bear left onto a dirt road. Follow the road up and around, it will join a gravel road, continue straight.

Cross the paved road and enter a dirt trail. Down the trail a ways * turn right R and follow again until you find the green gate. Enter.

*Take the first right R turn after the gate and follow the path back to the water and to ride camp .You did it!!

When you get back to camp check in with the ride timer, have your horse pulsed down and get a finish time written on your card. After your horse has pulsed down you may present to the vet for a completion exam. Please be considerate if there are competing riders in line with you to see the vet; give them priority since they are on their way out again.
